ECE ADVOCACY AND LEADERSHIP (ECEL)

Certificate of Completion | Online

Are you currently in an ECE leadership role or looking to be in one? This program will examine historical, political, professional, and social issues affecting ECE administration practice. Students will review strategies that characterize advocacy roles and responsibilities that reflect an in-depth understanding of ethical practices in ECE within the context of a self-regulated profession. By exploring theories of leadership through a process of self-evaluation, students develop techniques to hire and maintain quality staff while developing strategies for personal and professional growth in a management capacity.
