

EARLY CHILDHOOD EDUCATION (ECEP)

Cultivate curious children with play-based learning

In this innovative program, you will examine how children grow and discover how children learn through play. This play-based learning approach, combined with a culturally-relevant environment, nurtures children who are curious, capable, competent, and rich in potential.

Interactive classroom exercises will train you to design, plan, implement, and evaluate play-based learning for children from birth to 12 years of age. You'll gain practical experience in our on-campus mock childcare classroom. You can apply to become a Registered Early Childhood Educator upon graduation and be eligible to work in a variety of childcare settings in the community.

Program highlights

- Recognized by the College of Early Childhood Educators
- Placement in each semester
- Opportunities for international placements
- Community guest speakers and field trips to local agencies
- Opportunities to earn additional certifications built into the program
- Option to earn a second diploma in another community services program in just 1 year when you graduate
